About

The Moultonborough Academy school library program is at the heart of the school community. Staff and students are welcomed with open arms, and enjoy spending time in the library. Four pillars support the library program: effective collaboration with staff; robust collection development; amazing makerspace activities; and social emotional learning and support. The library program aims to be the safest place for students. It provides not only books, resources, and activities, but most importantly, a human connection and a non-judgment space where students are free to be themselves and find an attentive ear to listen to their complaints, aspirations, and dreams.
