About

Jan Yost has been a catalyst for change in education throughout her career as a teacher, principal, consultant, Board Member, and Executive Director of the NHASCD. She helped sustain our organization by creating professional development opportunities that support educators in New Hampshire, which was particularly difficult during the pandemic. She truly embodies the spirit of the EDies and the NHASCD mission, and continues to help our organization move forward. Jan Yost is truly the face of NHASCD.
