

2024-2025 EDies Rubric

The awards for the outstanding elementary, middle, and secondary schools are determined by criteria developed by the New Hampshire Excellence in Education Awards Board of Directors and applied by selection committees composed of experienced New Hampshire educators and community leaders.

The committees study school applications and assess schools through on-site visitations. Only one school at each of the three levels may be recognized each year, although no schools may be recognized if there are not applicants of sufficient merit.

The selection committees determine if schools deserve recognition as schools of excellence, and the winners are announced at the annual New Hampshire Excellence in Education Awards Celebration.

C & I Curriculum & Instruction

The curriculum and instructional practices are presented in a rigorous, relevant and engaging learning environment.

C & C Community & Culture

The school organizes community members, ensuring they all have a role in building the school's climate and culture.

Vision focus & Communication

The school's vision, mission and goals are clearly articulated, well communicated and guide practice.

Informed Personalization & Data

The school has an effective system for utilizing data and information that supports personalization.

EMPOWERED Collaborative & growing

There is a culture of empowerment among students, staff, teachers, administration, and community members.

The curriculum and instructional practices are presented in a rigorous, relevant and engaging learning environment.

Indicators	Exemplary	fully evident	Partially or Not Yet Evident
Evidence of instruction that provides opportunities for students to extend their own learning	3	2	1
Evidence that students are provided opportunities to assess their own learning	3	2	1
Evidence that instruction includes questions that increase in rigor and levels of thinking (DoK)	3	2	1
Evidence that students are able to generate rigorous questions and respond to questions posed by peers.	3	2	1
Evidence that instruction includes opportunities for students to engage in rich academic conversation with adults and peers.	3	2	1
Evidence that students complete relevant, real-world tasks connected to college and career readiness.	3	2	1
Evidence that instruction is designed based on rigorous and relevant expectations.	3	2	1
