Terrill Covey

Coordinator of the Year

The 29th Annual New Hampshire Excellence in Education Awards recognize New Hampshire schools and individuals who meet high standards of excellence. The criteria used in selecting outstanding individuals to be honored are determined by their sponsoring organizations.

About

Mr. Covey's engaging approach and data driven models clearly serve to support him as ELO Coordinator of the Year. This year he was able to report 100% participation in the off-site activities where three internships translated into hires. Terrill has been a long-time advocate for ELOs and has contributed significantly to the NH ELO Network in leadership roles. The work is all the richer because each Strafford Learning Center student has significantly struggled with school and learning so Mr. Covey's work to connect them to authentic, real-life experiences is essential. In the seven years, Terrill has been at Strafford Learning Center he has made a profound impact on the students via ELOs.
