## *About*

Claudia Sysyn has been a cherished and generous volunteer in the Conval School District since her retirement. She shares her passion for working with children and provides unique and enriching experiences to students at Greenfield and Pierce Elementary Schools. Being familiar with the curriculum allows Sysyn to choose activities that extend students' understanding of literature, science, social studies, and life skills such as sewing. She supports the classroom teachers and students by donating all materials needed for projects including sewing kits & fabric for sewing groups. She donates countless books each year and sends in crafts, treats and gifts to all students at holidays. The children love Mrs. Sysyn and the projects she brings to class. Claudia Sysyn is a retired educator whose continued desire to volunteer in our public schools makes her very deserving of the Doris Barnes Retired Educator Lifetime Achievement Award.
